

Project Manager Required – Client facing

About Queensborough Project Management (QPM) QPM is an integral part of PDSI group of companies who combine management, technical expertise and financial acumen in the built environment. We are an independent privately owned property and construction consultancy that sets itself apart from the competition by employing and retaining some of the top talent in our industry. We can offer one of the most exciting career opportunities to ambitious project managers looking to maximise their potential.

The organisation has been trading for 25 years and prides itself on 'service excellence' by providing focussed and innovative solutions to its clients in frequently complex scenarios.

The company has ambitious plans for growth and is looking for energetic and experienced, entrepreneurial, personable problem solvers to join its team of Project Managers, Commercial Managers and Construction Planners to help create a leading brand.

Visit our website for more information; www.pdsiconsult.com

The Role

We are looking for articulate, well-trained individuals capable of working on their own initiative and able to work effectively as part of a team or project leader. The right candidates may either be from a consultancy or contracting background. The candidates with membership of industry profession preferred but high quality none members with good experience and drive will be considered.

As well as being able to demonstrate technical skills we are looking for people with ambition that can work effectively under pressure. These roles are demanding but offer great growth potential.

The candidates will initially be based at our offices in Waterloo, London but will be expected to travel from time-to-time.

Desired Skills and Experience appropriate to seniority

- Project team leader
- Procurement advice and options
- Pro-active team player and self-starter
- Construction knowledge and track record
- Contract strategies and understanding of contract options
- Familiar with construction planning
- Planning software experience would be an advantage
- Principles of risk management and value engineering
- Articulate clear report writing
- PM, CA and EA experience.
- Full spectrum of project delivery from concept to delivery and close out

- Excellent communication skills

We will offer – depending on seniority

- A varied and exciting workload across a broad mix and industry and leading blue chip clients
- A friendly, supportive, sociable and welcoming team
- Opportunity and support for you to progress and build your own career
- We will openly encourage personal initiative and ambition
- A growing, modern, forward thinking company
- A market competitive salary with annual reviews and discretionary bonus scheme
- Centrally located office with good transport links

If you think you would like to work with us and are of the calibre we are looking for, please do not hesitate to apply. We look forward to meeting you!
